

## Cutover Reminder: Portal and EDI ESAR A2.3.1a Changes (For All Account Types)

### **ATTENTION ALL ACE ACCOUNTS:**

On Sunday, February 14, 2010, U.S. Customs and Border Protection will deploy enhanced ACE capabilities within the Entry Summary, Accounts and Revenue (ESAR) release. The A2.3.1a release will provide new Portal and EDI capabilities specific to the filing and processing of AD/CVD entries (also known as type 03 entries) and AD/CVD Case Management.

### **New ACE Portal Features in this Release Include:**

---

#### **AD/CVD Case Management**

- Ability to search, display and print both AD/CVD case information and AD/CVD messages
- Ability to track the life cycle of an AD/CVD case
- Access to important case information such as the duty deposit rates, entry summary suspension status, bond / cash status, administrative review information and events related to the case history (e.g., “initiation,” “preliminary,” “Final,” “Order,” “Terminated”)
- Access to additional useful information in one easy location such as additional header data elements (e.g., “message status,” “Federal Register Notice cite,” “Federal Register Notice publication date,” “court order number”) and ability to run searches within the Portal

#### **CBP Forms**

- Importers with an ACE portal account who select “portal” as their mode of communication will now also be able to view and respond to CBP Forms 28, 29 and 4647 via the ACE Portal for all entry summaries (that is, both ACS and ACE entry summaries)

#### **Declarations**

- Brokers with an ACE portal account will now also be able to create declaration records for their non-portal accounts. (Brokers with clients possessing their own importer portal accounts, however, will not be able to create declaration records on behalf of those clients. Brokers will have to be granted access as a “user” on the importer’s portal account in order to create the declaration records).

#### **Reports**

- Access to new and enhanced Portal reports to include AD/CVD entry summary data

## Cutover Reminder: Portal and Other ESAR A2.3.1a Changes (For All Account Types)

### **New EDI Features in this Release Include:**

---

- EDI trade participants will be able to file entry type 03 entry summaries electronically in ACE using a better organized, more descriptive ACE ABI CATAIR (Customs and Trade Automated Interface Requirements) document. Filers will also have the ability to run an ABI query of AD/CVD case information. Information returned in the query output will include data required by ABI filers to successfully file anti-dumping or countervailing duty entry summaries in ACE.

### **Additional Resources Available:**

---

- Take the web-based training (WBT) titled “*ACE Forms, Declarations and AD/CVD Cases*” under the “*Training and Reference Guides*” section on CBP.gov ([https://nemo.customs.gov/ace\\_online](https://nemo.customs.gov/ace_online)).
- Go to CBP.gov/Modernization, Cargo Systems Messaging Service section, for additional information on the A2. 3.1a release capabilities (see: CSMS 10-00000-1).
- Look for additional user guides that provide detailed instructions on A2.3.1a release capabilities in the next few weeks on CBP.gov/Modernization under the “*Training and Reference Guides*” section.
