

Retirement of Infrequently Used Public Reports for Trade Users

As part of its effort to clean up ACE Reports and improve system usability, the ACE Reports team will retire a significant number of infrequently used reports on **February 15, 2016**. The following table provides a list public “canned” reports that will be removed from the **Public Folders** in ACE Reports. Users wishing to maintain access to any of any of the reports on this list may do so by saving a copy to their **My Favorites** or a shared folder for future use.

Reports to be removed from the ACE Reports include:

Universe	Report Name
Account Management	AM-002 Entry Summary Lines by Port of Entry Code Report
